

BRADNAM'S

SCREENS

Protect against unwanted intruders

Bradnam's
windows & doors

Security Screens

If security is important to you, you can't look past Bradnam's **Stainless View™** or **Ali View™**. Get security that comes with a view!

With superior strength mesh and an innovative keyway fixing system, they provide robust protection against would-be intruders – and without impeding your view.

Both products are carefully tested for resistance against knives, forcible impact, jemmying and other threats.

Our security screens are designed to protect you, your home, your family and your possessions.

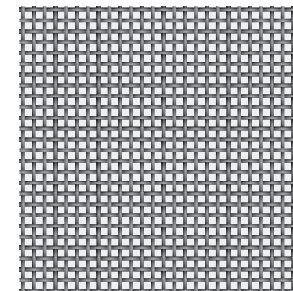

High Performance Security

Both **Stainless View™** and **Ali View™** comply to a range of Australian Standards.

		Stainless View™	Ali View™
Australian Standard AS5039-2008	A range of rigorous tests designed to simulate dynamic impact and tool attacks. These tests ensure the strength and integrity of the product are maintained against forced entry.	+	+
Australian Standard AS3959-2009	AS3959-2009 covers the bushfire safety requirements of building in a bushfire prone area.	+	Complies up to and including BAL 29
BCA – Fall Prevention Provision	Building construction requirements designed to minimise the risk of small children falling from windows and balconies.	+	+

Stronger Mesh

Stainless View™ mesh is made from T316 marine grade stainless steel.

Ali View™ mesh is made from perforated aluminium panels.

Innovative Fixing System

Zero contact

Stainless View™ and Ali View™ are manufactured without traditional mechanical fixings such as screws and rivets.

There is zero contact between the mesh and aluminium frame. This separation minimises the chance of galvanic corrosion between different types of metal as there are no mechanical fixings to start the corrosion process.

3M™ VHB™ Acrylic Adhesive

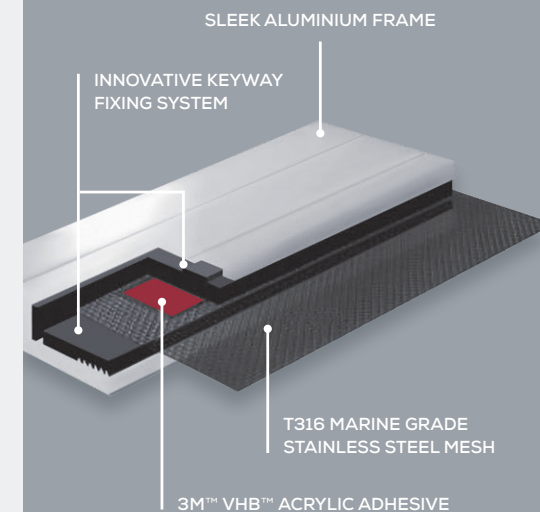

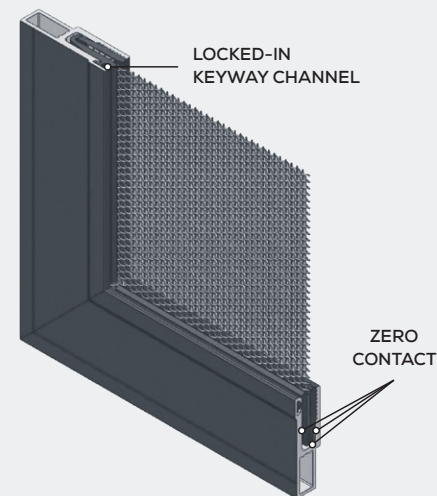

Instead of traditional mechanical fixings, the unique system employs the same product used on commercial aircraft wings and skyscrapers.

Two-part wedge system

The unique two-part wedge system creates the exact pressure needed to activate the 3M™ VHB™ acrylic adhesive to its full potential.

Locked-in channel

The T-groove ensures that the wedges strongly resist being pulled out of the frame.

Safety & Insect Screens

With their classic diamond grilles and close-knit mesh, our **safety screens** keep your home safe from most would-be intruders. Specifically designed to complement and fit Bradnam's windows and doors, they're a suave and sensible choice for your home. For enhanced security, our hinged safety screen doors also come with an optional triple locking system.

Specially designed to match Bradnam's windows and doors, our **insect screens** let the fresh air in and keep most insects outside where they belong. A practical and lifestyle product, our insect screens allow you to enjoy the benefits of natural ventilation while remaining shielded from mozzies and other unwelcome insect intruders.

Features & Benefits

- Let the breeze in, but keep most insects out
- Designed specifically for Bradnam's windows and doors for a seamless integration
- Frame available in the same colour as our windows and doors

Extra Features – Safety Screens Only

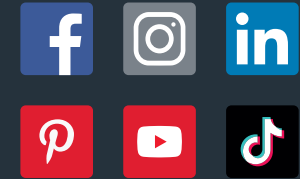

- Diamond grille comes in attractive diamond pattern and is a good deterrent to intruders
- Diamond grilles are available in a wide range of colours
